Orland CA 95963

Thank you for the grant to install a sound system at the Fair Grounds for their use and especially ours during the annual Avenue of Lights. We are very excited to help the Fair get this essential equipment, it will not only enhance our event but will be available for all the events held at the Fair Grounds.

We have been very fortunate to have had the sound contractor, Kemper Light and Sound voluntarily bring their speakers for our event. However, last year they were unable to find a dry time to get on the roof and our event suffered. As a result we heard many complaints.

Music not only entertains our many guests but lifts the spirits of our many volunteers that are out in the weather. We are looking forward to this December 16th through the 20th when the 13th Annual Avenue of Light's will once again be complete with the sound of Christmas Carols enhancing the drive-thru experience.

Thank you Barceloux-Tibessart Foundation for your support this year and in the past.

Merri Caywood
Vice Chair Avenue of Lights
